

moonring

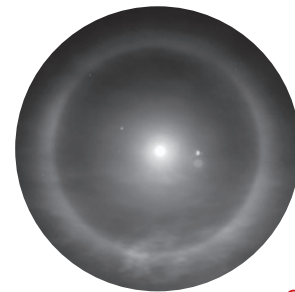

LP1/MR1 | LED
Suspended, Surface
Direct, Indirect

For specification in offices, schools,
stores and other commercial interiors.

Render Tranquil Radiance with Lunar Arcs of Light.

Moonring sweeps through and around interior spaces with peaceful, harmonic halos of light and other illuminating curvilinear forms. Available in suspended and surface mount models, the luminaire achieves its mystical, soft gleam from a flexible LED source weaved within a narrow housing.

- 4', 5', 6' or 8' diameter rings comprised of four joined segment arcs
- Segment arcs can also be joined to form half-circles, S-shapes, ovals (with Lightplane 1) and more
- Suspended (direct or indirect) and surface mount (direct) models
- Dimmable, remote 0-10v, DALI, DMX or Lutron® driver(s)
- Decorative, constant voltage LED engine delivers nominal 176 lm/ft at 4.4 W/LF
- 3000K, 3500K or 4000k CCT at 80+ CRI
- 100% recyclable, 1"-wide extruded aluminum housing
- Impact-resistant, acrylic opal lens
- Aluminum, black, white or RAL finish

Moonring takes its name from the phenomenon that occurs when moonlight is refracted by atmospheric ice crystals forming a gleaming lunar halo.
