

Clara | CLA

Linear LED
Suspended, Wall
52% Direct / 48% Indirect

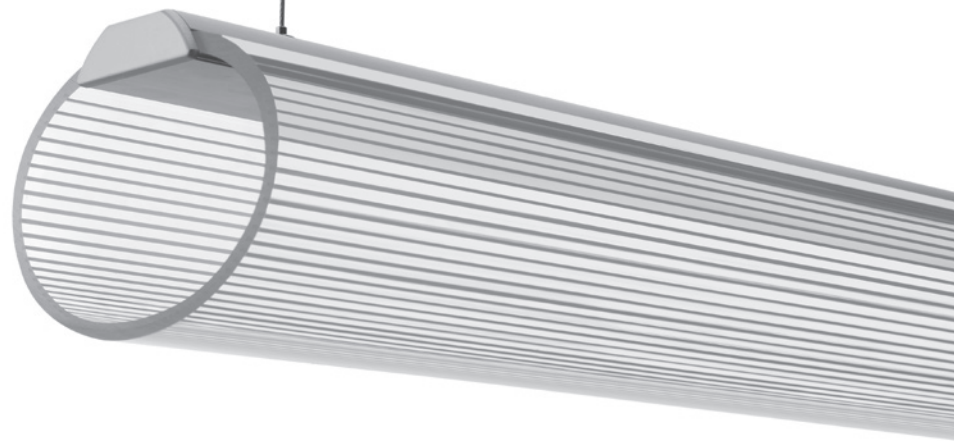

For specification in offices, schools, stores and other commercial interiors.

See Through to a New Dimension in Lighting.

Clara's hollow, illuminated lensed body provides designers a bold new aesthetic from which to deliver energy-efficient, high performance LED lighting. Available in linear suspended and wall sconce models with either a clear or semi-frosted lensed body.

- 4 ³/₄" X 3 ¹/₃" illuminated oval body provides both up and down lighting
- 2', 4' and 8' joinable suspended sections for continuous rows
- 2' or 4' vertical or horizontal, ADA-compliant wall sconce
- Remote 0-10v, DALI, DMX or Lutron® driver(s)
- Dimming options down to 0%
- High-performance LED engine delivers 89+ lumens per watt
- 3000K or 4000k CCT at 80+ CRI
- Clear or semi-frosted, co-extruded acrylic lensed body with optic-enhancing thin white lines
- Natural, aluminum matte housing with white connection joiners
- Meets DLC performance requirements; listing pending

Clara can be suspended and connected in continuous rows for general area ambient applications or wall-mounted and dimmed to provide accent illumination.

Two lensed body options as shown:

Clear top and left
Semi-Frosted bottom and right

HORIZONTAL WALL SCONCE

VERTICAL WALL SCONCE
