

Hylytr™ Showcaser | HYSC

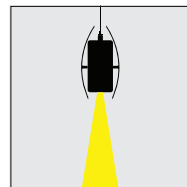

Linear Highlighter | Suspended and Recessed | LED

Ideal for specification in retail stores, offices, public institutions and more.

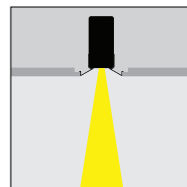

Show Off Long, Linear Surfaces with Near Laser Beam Precision.

Hylytr™ Showcaser is designed to efficiently illuminate countertop displays, lab benches, aiseways and other long, narrow surfaces with ultra precision. The luminaire emits sharp, clearly defined, hard-edged linear downlight without vignetting and spillover.

- 2" X 4 1/2" extruded aluminum housing
- Recessed or suspended mounting
- Optional, slide-in accessories gracefully shroud housing (suspended only)
- Proprietary Double Slot Optics™ sculpt light precisely with no glare and no lens
- High-flux, high-performance LED engine utilizes less energy than competing products
- Multiple lamping options available to provide narrow beam direct illumination from fixture heights of up to 60'
- On-board (recessed) and remote (suspended) dimming driver(s)
- 90+ CRI and color temperature options from 2700K to 4000K
- Aluminum, black, white or RAL finish

SUSPENDED

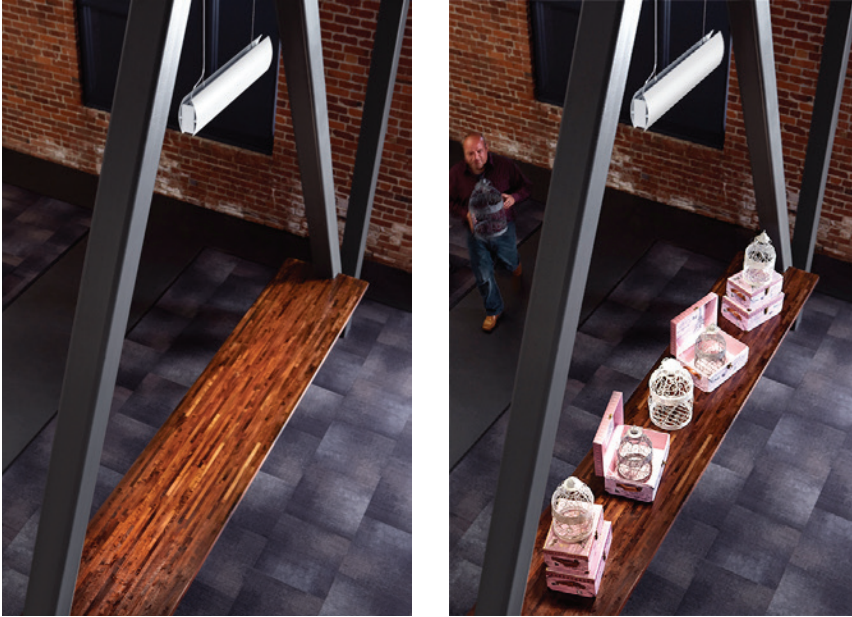

RECESSED

Hylytr Showcase is ideal for illuminating long, narrow, horizontal surfaces such as display counters and walkways.

Suspended Only

CURVED

FLAT

Narrow, Yet Wide

In elevation, Hylitr Showcaser emits a narrow, hard-edged beam ideal for illuminating surface-tops with spill-free precision.

In profile, the luminaire kicks out light broadly, requiring fewer linear feet of fixture than traditional products to cover wide expanses.
