

Frame Your Vision... More Uniformly

Hylytr™ Wall Grazer | HYWG

Recessed and Perimeter | LED

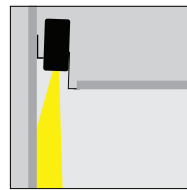

Ideal for specification in retail stores, offices, public institutions and more.

*Save energy
illuminating textured
and feature walls
uniformly all the way
down to the floor.*

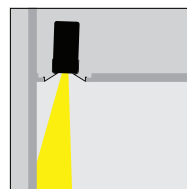

Wall Grazing Just Got a Whole Lot Greater.

Hylytr Wall Grazer makes highlighting walls more artful, more efficient and more budget-friendly than ever before. Often requiring fewer linear feet of fixture, Hylytr shines an extraordinarily uniform light on accent walls bringing out dramatic textures and sublime details. And it does so utilizing less energy than traditional LED and fluorescent grazers.

- 2" X 4 1/2" extruded aluminum housing
- Recessed and perimeter mounting into T-grid, slot and drywall ceilings
- Slide-in accessories serve as application-specific mounting hardware
- Proprietary Double Slot Optics™ sculpt light precisely with no glare and no lens
- High-flux, high-performance LED engine utilizes less energy than competing products
- Multiple lamping options available to illuminate walls up to heights of 60'
- On-board or remote dimming driver(s)
- 90+ CRI and color temperature options from 2700K to 4000K
- Aluminum, black, white or RAL finish

PERIMETER

RECESSED

alwusa.com/hylytr

Install Options

RECESSED

Recessed for T-grid and slot tiled ceilings. Mud-in for drywall ceilings also available.

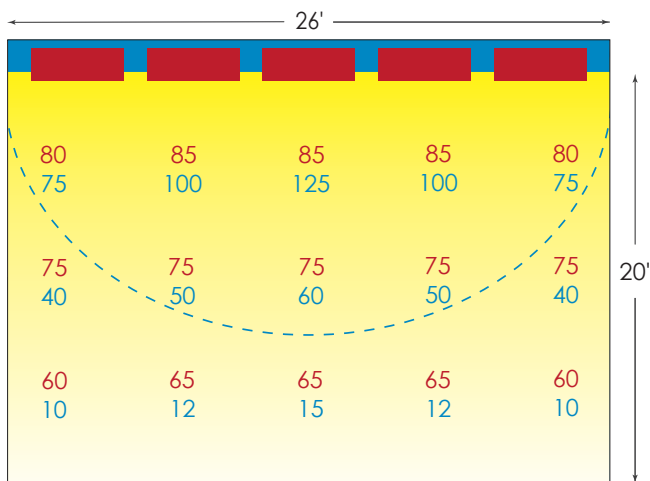

PERIMETER

Perimeter for T-grid and slot tiled ceilings.

Hylytr Out-Performs the Competition

Illuminance Uniformity, Fixture Spacing and Grazing Efficiency Comparison

HYLYTR

(5) 4' luminaires
1' spacing
400+ cd/W

FLUORESCENT & LED

(1) 30' continuous run
FL – 55 cd/W
LED – 110 cd/W

Why are we measuring candelas/W instead of lumens/W?
